OTHER TREATMENTS

Foot Treatment

Relax in a heated facial bed with a warm neck wrap while your feet steam in towels infused with essential oils. Your therapist will exfoliate your feet with an Eminence scrub followed by a massage of a luxurious Eminence oil-lotion blend with a mixture of hot stones and gentle massage techniques.

30 minutes \$55

Body Treatments

While reclined in a warmed bed, your treatment will consist of dry brushing, aromatic hot towel compresses, followed by a full body exfoliation with the Eminence body polish of your choice and a hot stone treatment with a luxurious application of hydrating Eminence body lotion.

60 minutes \$145

Body Treatments & Mini Facial 90 min / \$185

ADVANCED AESTHETICS

Microneedling

Get incredible results with minimal downtime using our professional FDA approved microneedling device. Treatments with our JuvPen J1 rejuvenate your skin by inserting tiny needles into the top layer of skin. This process will boost collagen production, which reduces the appearance of wrinkles and fine lines and elevates the overall texture of your skin.

60 minutes Face \$195 / 3+ Treatments \$175 each

Dermaplaning

A method of exfoliation that uses a surgical scalpel to gently scrape off the top layer of dull dead skin cells and vellus hair (peach fuzz) in order to reveal a smoother, brighter complexion. This quick effective treatment primes the skin to allow the penetration of nutrients directly into the skin. The results create a smooth surface for makeup and results in a flawless look. Includes a treatment mask.

45 minutes \$90

Microdermabrasion with LED light therapy

This multi-step treatment deeply cleanses, evenly exfoliates and polishes the skin with crystals. This luxurious treatment results in increased collagen and elastin production and reveals a smooth, luminous glow. Red LED light therapy reduces fine lines and wrinkles by stimulating cellular renewal.

75 minutes \$125 / 45 minutes \$85

Microcurrent Treatment

Also known as the NON-SURGICAL FACE LIFT. Extremely low-voltage electrical currents are emitted, which mirror your own body's electrical currents, on a cellular level to stimulate collagen and elastin production. This treatment retrains the muscles in the face for a toning and tightening effect.
